The PIUSI SB325_X METER is the patented automatic metered nozzle by PIUSI for AdBlue®. It is composed by an innovative technopolymer casing, a break-away system, a stainless steel spout and the K24 meter with $\pm 1\%$ accuracy. Safety is guaranteed by the break-away system. In the event that a vehicle accidentally drives away with the nozzle still in the tank, the spout is designed to detach from the nozzle. This system also allows for a quick repair by merely fitting a new spout onto the nozzle.
