

Stronghand 0422 Grip Black Nitrile Disposable Gloves Unpowdered

Stronghand 0422 Grip Black Nitrile Disposable Gloves, powder-free – strong grip and reliable protection for professional applications. The **Stronghand 0422 Grip Black Nitrile Disposable Gloves, powder-free** are the ideal choice for anyone who relies on **high durability, a secure grip and reliable protection** in their daily work. Whether in the **automotive industry**, in the **laboratory**, in **food processing**, in the **workshop**, in the **plumbing sector**, for **small parts assembly**, in the **electrical industry** or in **quality control** – these **disposable nitrile gloves** impress with their robust design and versatile applications. Made from **black nitrile**, the gloves are **latex-free** and therefore also suitable for users seeking an alternative to latex products. The **powder-free** design ensures a pleasant feel and makes the gloves particularly comfortable for everyday use. Furthermore, the gloves are **dermatologically tested** and **suitable for contact with food**. A distinctive feature of the **Stronghand 0422 Grip** nitrile gloves is the pronounced **diamond pattern**, which ensures **excellent grip and a secure hold in both dry and wet conditions**. This makes the gloves particularly suitable for tasks requiring precision, control and a firm grip. At the same time, the material offers **high durability** and reliable protection for professional use. With a **material thickness of 0.15 mm**, a **length of 24 cm** and **ambidextrous wear**, these **black disposable nitrile gloves** are particularly practical and cost-effective. Thanks to **AQL 1.5** and compliance with standards **EN 21420**, **EN 374** and **Category 3**, they meet high standards of quality and protective performance.

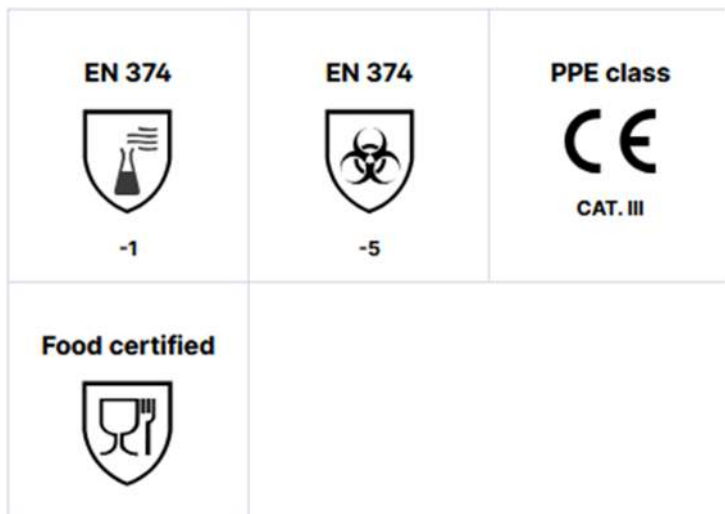

The gloves are available in sizes **7 (S)**, **8 (M)**, **9 (L)**, **10 (XL)** and **11 (XXL)** and are supplied in a practical pack of **10 boxes**, each containing **50 gloves per dispenser box**.
